EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims;

Claim 1, line 11 "which locking" has been changed --said locking--.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor does any combination thereof fairly suggest a hoist having a locking device with a closing member operable for bringing the closing member from a first position, in which the closing member at least partially closes off a connection portion of a continuous slot to a second position in which the closing member has been slid out of the connection portion for moving a stud along the continuous slot. The combination of elements as set forth in the claims is not shown by the prior art, and in particular the features as set forth above

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
